5	Exercise from given chapters
6	Dictation 1/2x10=5

80 Mark

CRITERIA FOR INTERNAL ASSESSMENT

1 Book & copy 2 Activity/ Project 3 Oral Test/ Pen & Paper Test	
I.A. Total Written Paper	
Total	

MONTH	UNIT	CONTENT	LEARNING OBJECTIVES	TEACHING AID	ACTIVITIES/ ASSIGNMENTS
April	Bridge Course	Addition, Subtraction, Tables (1 to 12)	Students will be able to add, subtract the numbers & Recite tables from 1 to 12	Written Practice	Make a chart of Tables .
	1. Numbers upto 9999	Introduction, one thousand, greatest and smallest, place value, successor and predecessor, ordering of numbers	Students will be able to understand the concept of numbers & able to recognize order and pattern of number asked from them.	Indian Place Value Chart.	Indian Place Value Chart.
	2. Addition	Addition (4- digit numbers), addition (with regrouping), properties of addition, adding three numbers, word problem.	Students will be able to use properties of addition to solve the sums.		Make your own Abacus.
May	3. Subtraction	Subtraction (with regrouping), subtraction (check your answers), properties of subtraction, word problem.	Students will be able to use properties of addition, subtraction to solve the sums.		Assignment based on addition, subtraction.
	4. Multiplication	Multiply (3- digit by 1 digit), multiply (with regrouping), properties of multiplication, multiplication by 10, 100 and 1000, multiplication by the multiples of 10 and 100.	Students will be able to use properties of multiplication to solve the sums.	Chart showing multiplication tables.	Paste bindi in notebook to show properties of multiplication.
July	4. Multiplication (contd.)	Multiplication (2- digit numbers by 2- digit numbers), multiplication (3- digit numbers by 2- digit numbers), word problems			
August	REVISION & 1ST TERM EXAMINATION				
September	5. Division	Division as equal distribution, division by repeated subtraction, relation between multiplication and division, division using multiplication tables, terms used in division, long division method, division with remainder , two digit quotient, properties of division, division of 3- digit numbers, word problems	Students will be able to apply their skills to solve simple problems of day to day life related to division. They will be able to think logically to solve the sums.	Observe division by equal sharing & Relate multiplication and division as inverse operation through matching activity.	Worksheet on division is given.
	6. Day, Date and Time	Reading of calendar, clocks, units of time (hours and minutes), finding time in 1/4 hours and minutes, conversion of time- a.m. and p.m. Revision	Students will be able to : read the calendar. Read & tell the time on wall clock.	Video on clock.	Make calendar in notebook and colour your birthday.

October	7. Money	Amount of money in words and figures , converting Rupees into Paise & Paise into Rupees, addition in rupees and paise, subtraction in rupees and paise, word problem.	Students will be able to develop their understanding of concepts through experiences with things from the physical world and environment relating to money.	Chart showing different collection of coins & notes.	Take a thin paper and hold it over the coin and rub the pencil to take a print then paste on chart.
	8. Length	Introduction of Kilometer, conversion, addition and subtraction (without regrouping) , word problem.	Students will be able to recognize things measured by lengths & solve the sums.	Chart showing things measured in lengths.	Assignment, An activity of pasting different ribbons of different length.
November	REVISION & IIND TERM EXAMINATION				
December	9. Weight	Conversion , addition and subtraction (without regrouping) , word problems.	Students will be able to distinguish the things which are measured in weight & capacity.	Video on weight and activity based on weight and capacity.	Measure weight of your family members.
	10. Capacity	Conversion , addition and subtraction (without regrouping) , word problems.			Measure capacity of your water bottle.
January & February	11. Fraction	Fraction of a collection, numerator and denominator, ordering of fraction, adding like fractions, subtracting like fractions.	Students will be able to identify the numerator and denominator, in given fraction , to know about like fraction and do addition and subtraction of fractions.	Chart & ppt. On fraction.	Demonstrate fraction making different shapes and models.
	12. Geometry	Plane surfaces and curved surfaces, properties of solids, basic geometry, measuring line segments, constructing line segments of given lengths.	Students will be able to identify different types of solid figures & its properties, to identify line, ray, line segments.	Chart showing different objects similar to solid figures.	Students will paste different shapes of geometry in notebook.
REVISION					
March	FINAL EXAMINATION				

Tables will be revised and speak tests will be conducted in class time to time.
